Divisions: Women

Description: Diva Models was founded in 1987 with the idea of establishing an agency based on a very creative structure. With office in Aarhus, Denmark, today Diva Models is one of the most established model agencies in Scandinavia. We work closely with clients all over the world, and throughout the years we have established a world-wide network making us capable of offering the right solutions for both model and client. At Diva the models are our first priority, they are our brand and pride, they are human beings and a living example of the quality that exists at Diva Models. For us it is important to preserve the spirit of our work. This is done by

creating a positive environment based on mutual respect and well-being.

*Requirements for new faces.*

Diva Models is always interested in representing new models, but before you contact us, you should read the following. First and foremost we represent young models with international potential. Girls can begin modelling in their early teenage years. Boys can begin around their 17<sup>th</sup> year. Models from Diva work all over the world with Diva Models as their base. With the proper planning and the right attitude it is possible for most young people to combine a model career with studies. Later on one can consider the possibility of working full time. You do not have to travel around the world, but consider it as an offer you can accept, if you get the chance to work abroad. Diva Models also represent men and women ranging from their mid twenties to mid fifties. Most of the models from this division are very experienced. Please note that this is not a "must" to begin a modeling career as an adult. In general it is required that females are at least 5'8" and males at least 5'10". You do not have to look in a certain way, which makes it difficult to define exactly what we are looking for. A good physical appearance, beautiful skin, interesting characteristics, and not to forget the drive and they believe in that you can become a good model. You have to send us at least two pictures of yourself. The pictures do not have to be of a professional standard and we prefer pictures, taken with as little makeup as possible, and clothing showing as clearly as possible shape and figure. At the same time we need information about your age, height, hair color, clothing size and shoe size. Also we need sizes on bust, bra, waist, hips.

Beside our own models we represent many foreign models from agencies all over the world. Please contact to [divamodels@divamodels.com](mailto:divamodels@divamodels.com)

Wilma and Martin enjoyed transforming these young girls into professional models. Just by accident, 10 years ago, Wilma approached a pretty girl on the street

and suddenly Wilma Wakker Model Management was founded. In the beginning she continued with her work as a stylist as she slowly scouting and developed new talent. From the beginning Wilma decided to focus on girls that could work towards an International career. Most of the girls who are with her never thought about becoming a model, but with Wilma's nurture and guidance they do surprisingly well. Preferring to keep the agency small, Wilma and Martin can concentrate on coaching the girls individually. Wilma will very often travel with the girls, especially while they're young and during show seasons. Although this is a high pressure business and contrary to the quiet life in Holland, Wilma Wakker loves where her career has taken her. To Wilma, there is nothing in life so fulfilling as being a model mom.

Description: Founded in Iceland in the mid 90ies by Asta Kristjansdottir, formerly a model herself, Eskimo sparked out in 1998 to search more "dottirs" in Russia's Wild East: Siberia. Our main office in Tomsk is overlooking scouting activities in Omsk, Novosibirsk, Barnaul, Krasnojarsk, Chelyabinsk, Ekaterinburg, Perm, and Ufa. We focus on primary scouting at schools, and have gained a reputation for being - yes - very selective, but developing and launching in turn new talent quickly and at the highest level. In early 2001, we opened doors in Slovakia. We consider this step as the move towards true internationalization of our business and as the bridgehead for further expansion in Central Europe. From Bratislava our van Alice systematically travels the country to make sure that we don't miss any unpolished diamond not even in the most remote. Also in 2001, we touched the shores of Rio de Janeiro ... and settled.

We eventually moved further South to Florianopolis with the intention to be closer to the fertile scouting grounds in Rio Grande do Sul, Santa Caterina and Parana. In September 2002 we made a strategic investment in Bohemia Model Management, a well established agency in Prague.
